

Draw the System Activity: Endocrine

Directions: Draw and label the system including all parts listed below. Drawing *must* be colored - each part a different color. You must include the **hormone** and its function for each part as well as draw/label it on a human body in order to receive full credit.

Structures (glands) to be labeled (define/describe each below):

pituitary

thyroid

parathyroid

adrenal

thymus

pineal

hypothalamus

pancreas

Gonads (define only) *No drawing needed for the gonads

male

female
